# Inclusive bathrooms design culture

Ponte Giulio is one of Europe's largest manufacturers of safety solutions for bathrooms, with a range of products suitable for hospitals, nursing homes, hotels and other commercial and residential buildings.

Ponte Giulio provides a range of products to satisfy the needs of the bathroom industry. The development of the company's product range over time has led to the creation of functional apparatus with more aesthetic appeal than other accessible bathroom products on the market.

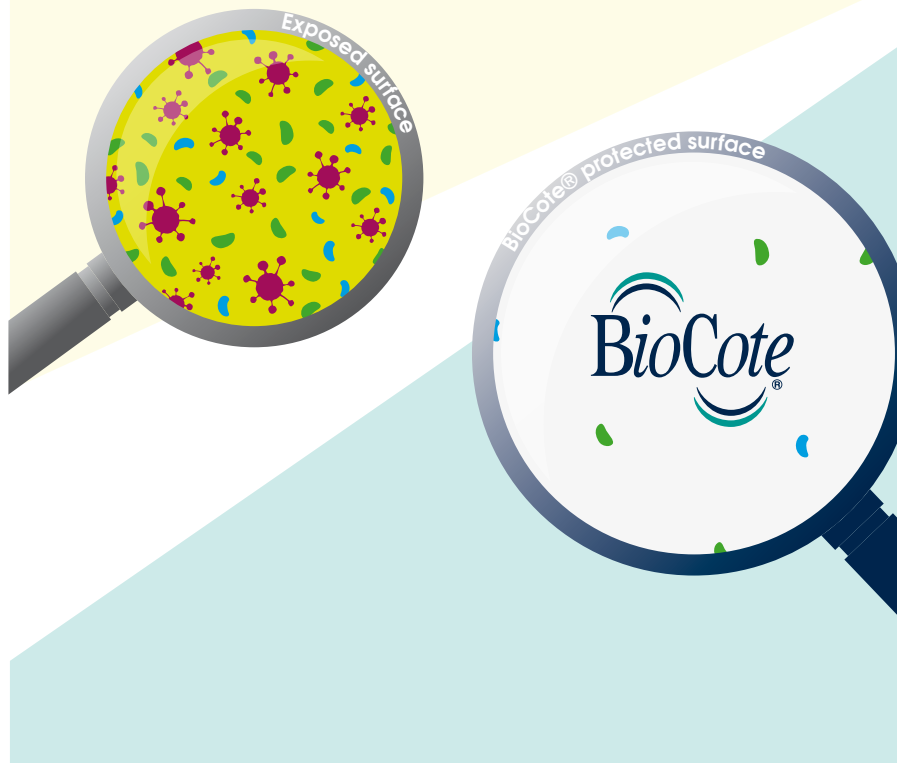

Ponte Giulio is committed to creating inclusive living spaces by designing stylish bathrooms which improve quality of life for all whilst strictly complying with regulations.

## BioCote® Silver Ion Technology

BioCote® is the leading provider of proven antimicrobial/antibacterial technology to companies around the globe. BioCote technology integrates antimicrobial protection into any surface or product, reducing microbes by up to 99.99%, making them more hygienic and defending the surface against degradation, odours and staining.

The BioCote® range of antimicrobial additives can be added to any material during the production process including plastics and polymers, coatings and paints, textiles, metals and more. That is why many of the world's biggest brands are partner with BioCote®.

We have technologies and unique formulations based on Silver-ions, Zinc, Copper and organic active ingredients. All of our antimicrobial active ingredients have performance and quality in common.

For more information check at [www.biocote.com](http://www.biocote.com)

## Family Range Features

*This Series has been specifically developed to be suitable for all ages and generations, combining pleasing design with safety needs.*

The "Family" series has been conceived with the aim of enabling simple assembly in any bathroom, this range can also be combined with accessories and elements from our production ranges. The core element of this series is the square shaped linear grab rail, a multi-functional component which can be customised for various needs and requirements.

The grab bar may turn into a towel holder, a shelf, a handrail, a paper roll holder or many other items.

It is manufactured in square shaped high quality stainless steel complete with simple cylindrical wall fixing kits. Its simple, light and elegant design may satisfy the different tastes and meet the requirements of different people.

A choice of toilet brush holder, paper roll holder, shelves, safety folding grab bar and grab rail is also available.

### Materials

- Stainless steel AISI 304
- Aluminium
- Acrylic stone
- Brass

### Vertical grab rail with shower head holder

Prestigio slider grab rail includes a single handed operation shower head holder, for those who have limited hand use.

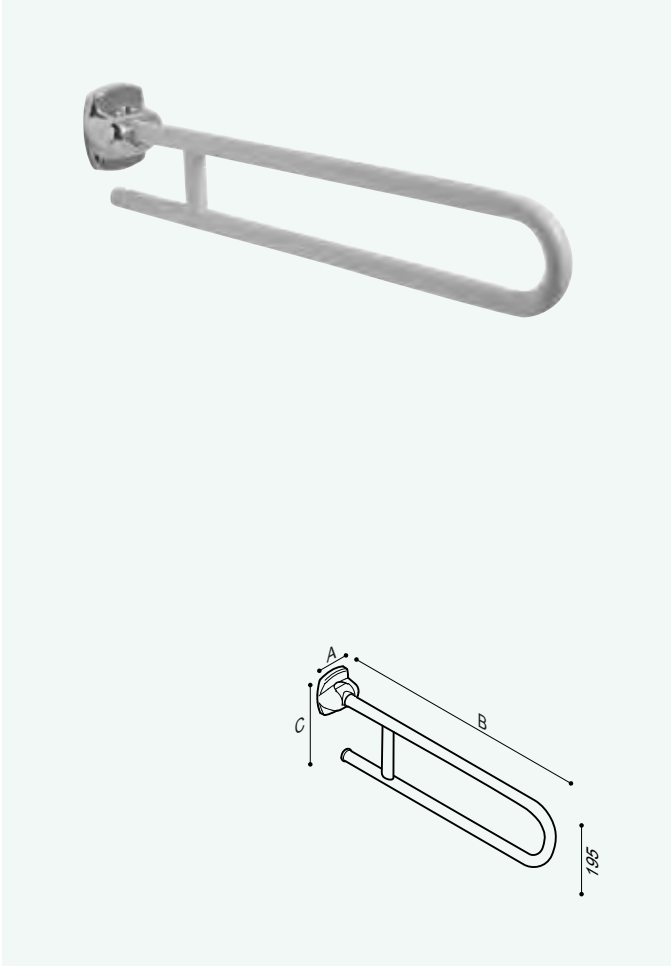

These rails are produced in a 994 mm length and are suitable for a person sitting in the shower area but also suitable for a person standing, and add to assisting them in showering.

The rail incorporates a stylish shower handset holder, which is designed for use with one hand, by just squeezing the handle to increase the height, or lower the shower head.

A shower head holder may be required at a future date and can be installed fuss free in a couple of minutes without removing the slider rail. There is a variety of colours available as well as the chrome version, the code is: Y87JOSO4XX.

Available in the standard colorus/finishes: Warm White "W2", Sand "T6", Cherry "PA", Oxide Grey "D8" and Bright finish "N2".

**Safety folding grab bars**

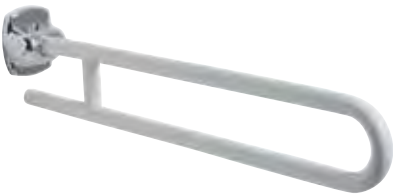

Prestigio folding grab rail with a chrome cover and choice of coloured rails.

To complement the Prestigio range of grab rails we have produced a matching folding rail with a chromed cover, which completes the range. The folding rail has incorporated into the flange a friction system which prevents the rail from crashing down when in a vertical position.

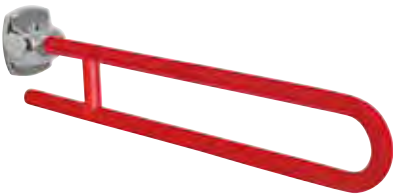

They are manufactured using the same tube as all the Prestigio rails and come in two lengths and with the same selection of colours as in the Prestigio collection.

Available in the standard colors: Warm White "W2", Sand "T6", Cherry "PA", Oxide Grey "D8", Bright Finish "N2".

**Prestigio+ flangeless safety corner grab rail with adjustable vertical slider rail**

This multi-functional system enables the installer to install the corner horizontal rails first then adjust the vertical rail along the horizontal rail to the required position, then fix it. The advantage with this system is that if an existing shower is in place the adjustable slider rail can be positioned to suit the showering position for the client. The slider rail comes complete with the one handed shower holder.

As with all the Prestigio range you have the choice of colors, polished stainless steel or satin finish with satin end caps. The grab rails are available in the standard colours/finishes: Warm White "W2", Sand "T6", Cherry "PA", Oxide Grey "D8" and Bright finish "N2"

The grab rail body is made of Ø 32x1.5 mm stainless steel AISI 304 tube. The internal components are made of aluminum.

### L shaped Prestigio+ shower curtain rail

The Prestigio+ curtain rail is a designer curtain rail which complements all the Prestigio+ range as it is manufactured in the same stainless steel material and diameter of the grab rails and comes complete with the curtain hooks.

Its chunky look and strength make it stand out against basic curtain rails.

Installing the curtain rail is the same as the Prestigio+ cylinder system without seeing any screws, and adjusting the length of the rail can be achieved by using a pipe cutter or hacksaw.

As with all the Prestigio range you have the choice of colours and being in polished stainless steel or satin finish: Warm White "W2", Sand "T6", Cherry "PA", Oxide Grey "D8" and Bright finish "N2"

A support rod is available for extra support from the ceiling only in oxide satin finish

## Seats and benches

*Thinking about safety for everybody inside the bathroom, we rarely take into consideration one of the most useful and indispensable safety elements: a seat. As a matter of fact, and regardless the age, sex, or motion ability, anyone of us may better perform our daily activities inside the bathroom in a seated position, for example washing our face, taking a shower or getting ready for a bath.*

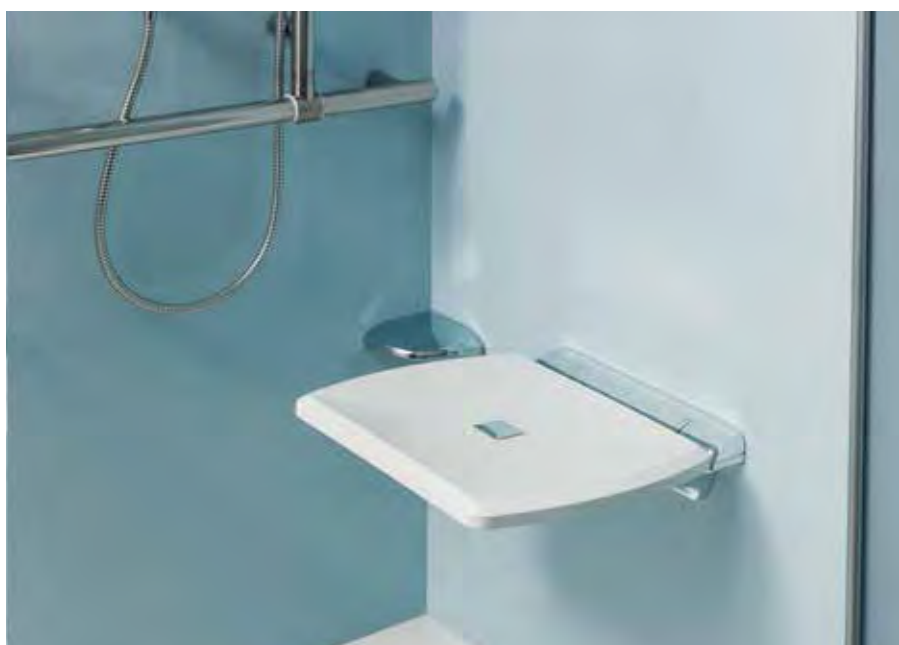

*Based upon this concept, Ponte Giulio has created a wide range of seats, stools and benches, designed to meet different needs, with the aim of making any bathroom environment safe and comfortable.*

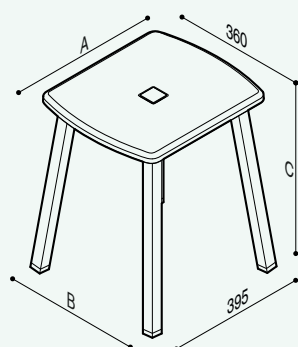

### Materials

*Considering the variety of products the most common are:*

- Stainless steel AISI 304
- Zinc-plated steel
- Vinyl
- Acrylonitrile butadiene styrene (ABS)
- Polyamide

For specific reference of material involved see each single item.

### Portable stylish shower stool

There may be situations when a shower seat is necessary and a portable one is the ideal solution.

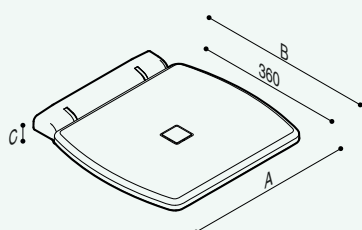

It may be used in the shower but also used as a seat by the basin for those who cannot stand.

The seat is manufactured from ABS and the legs are made from aluminium.

The seat is available in the following colours:

White "W1", Grey Stone "D2", Dark Grey "D4", and Ivory "I1" with legs made of natural aluminium with black rubber feet to prevent sliding.

Code	Dimensions [AxBxC] mm.
<b>G27JDS30xx</b>	415x395x500

### Fold down shower seat

This seat is slightly wider than average seats and has a flatter design as to fold up against the wall and protrude only 70mm.

A small water outlet hole is in the centre of the seat which prevents water filling the seat area.

The concealed fixing of the seat is an advantage over other makes as no screws are visible.

The seat is available in the following colours:

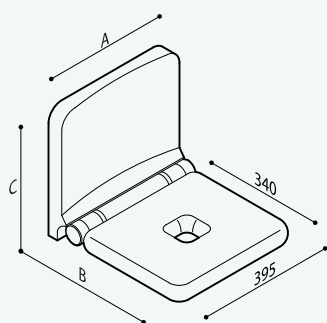

White "W1", Grey Stone "D2", Dark Grey "D4", and Ivory "I1".

No fixing screws are supplied with the seats.

Code	Dimensions [AxBxC] mm.
<b>G27JDS43xx</b>	415x425x105

*Chromed plated cover and seat hole cap*

Code
<b>S87SBD02C1</b>

### Folding shower seat with integrated back rest

Folding seat with integrated back rest, fit for the use in the shower area, having nice aesthetic appearance, easy cleaning, comfortable, safe and utterly solid structure free from any kind of elements which may cause accidents.

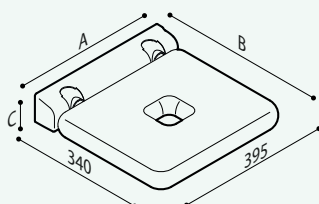

This pre-assembled article has a structure in hot polyester powder painted aluminum, the seat and back rest in soft polyurethane.

The wall fixing is secured by means of an aluminum wide plate having four fixing holes concealed by the back rest.

The seat is available in the following colours:

Greystone „D2“, Park Grey „D4“.

Code	Dimensions
	[AxBxC] mm.
<b>G12JDS19xx</b>	400x440x375

### Folding seat with seat in PUR material

Folding seat, fit for the use in the shower area, having nice aesthetic appearance, easy cleaning, comfortable, safe and utterly solid structure free from any kind of elements which may cause accidents.

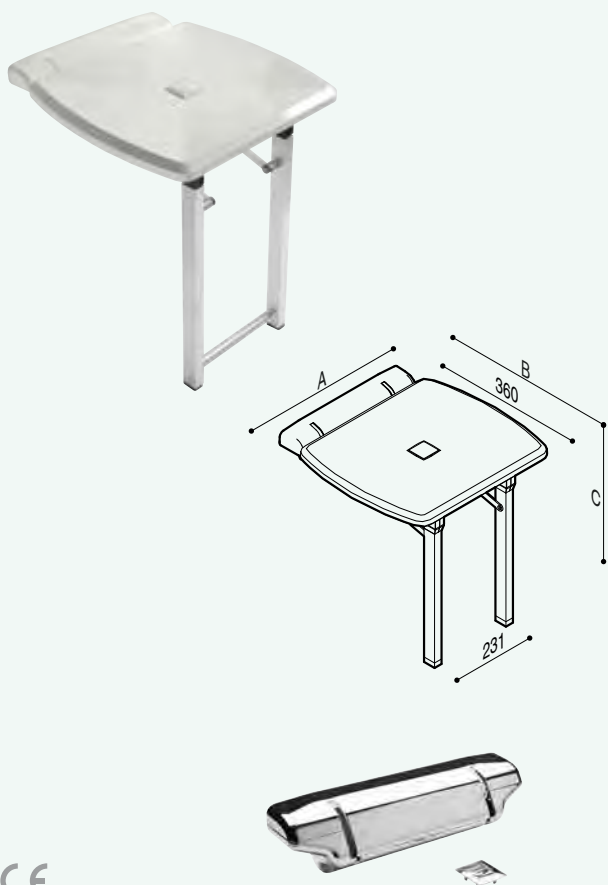

This pre-assembled article has a structure in galvanized steel and the seat body entirely in soft polyurethane.

The wall fixing is secured by means of two stainless steel AISI 304 plates equipped with 6-polyamide leveling counter-plates. This fixing kit is completed by one quick plug-in polished 6-polyamide cover plate, which hides the screw heads and fall arrest protection clutch.

The seat is available in the following colours:

Greystone „D2“, Park Grey „D4“.

Code	Dimensions
	[AxBxC] mm.
<b>G12JDS01xx</b>	400x410x80

### Fold down shower seat with extra support folding legs

This seat has the same specifications as the folding seat but with fold away legs to add to the support of the seat. Leg colour is white.

There may be a case that the wall structure is not strong enough to support the seat so using a seat with legs will assist the installation and provide extra strength.

The seat can only be lowered to the horizontal position by using 2 hands, this is a safety feature developed by Ponte Giulio to prevent the seat legs coming down un-expectedly.

The seat is available in the following colours:

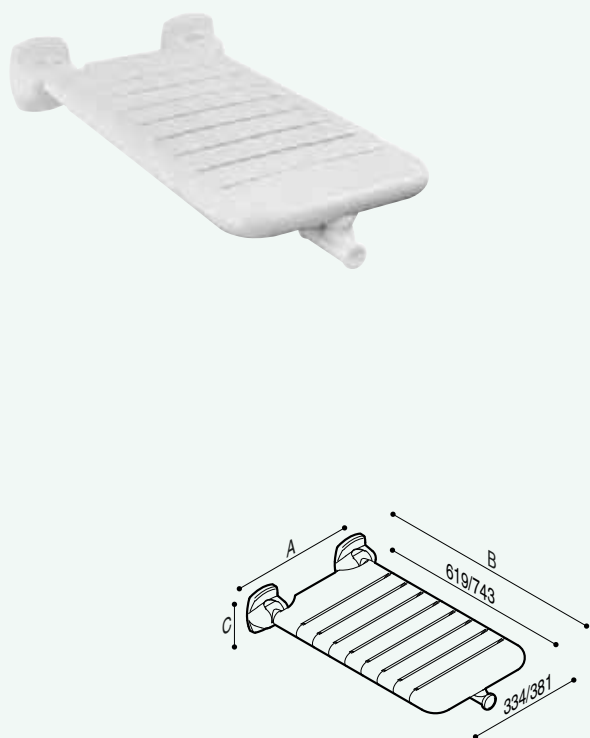

White "W1", Grey Stone "D2", Dark Grey "D4", and Ivory "I1".

No fixing screws are supplied with the seats

Code	Dimensions [AxBxC] mm.
<b>G27JDS44xx</b>	415x425x500

*Chromed plated cover and seat hole cap*

Code
<b>S87SBD02C1</b>

### Folding bathtub seat

Folding seat with slat seat, fit for the use on bathtub, having nice aesthetic appearance, easy cleaning, safe and utterly solid structure free from any kind of elements which may cause accidents.

This pre-assembled article has a structure in galvanized steel inside tube, in conformity of EN 10240 A.I Norm and outside non-toxic biocompatible Vinyl coating. The seat has 6-polyamide slats. High percentage recycled and recyclable and environmental friendly raw materials are used for its manufacture.

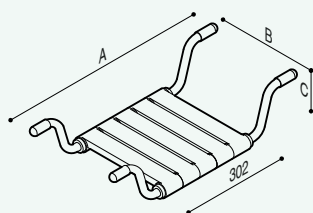

All the surface of the item is treated with a antimicrobial protection in accordance with ISO 22196 Norm, lowering down the levels of bacteria, mildews, fungus of at least 99,9% within 24 hours and warranting an antimicrobial effectiveness for the entire life of the article. The wall fixing is secured by means of stainless steel AISI 304 plates equipped with 6-polyamide leveling counter-plates. This fixing kit is completed by quick plug-in polished 6-polyamide cover plates, which hides the screw heads and fall arrest protection clutch.

The seat is available in the following colours:

Grey Stone „D2“, Dark Grey „D4“, Ivory „I1“, Biscuit „I2“, Prune „P4“, Ruby Red „R7“, White „W1“, Light Yellow „Y3“

Code	Dimensions [AxBxC] mm.
<b>G01JDS37xx</b>	400x710x130
<b>G01JDS38xx</b>	400x834x130

### Removable bathtub seat

Removable bathtub seat with slat seat and adjustable arms, fit for the use on bathtub. Its width may vary between 660 mm up to a maximum of 800 mm in order to be adaptable to the different types of bathtubs. The stability on the bathtub edges is warranted by four end parts having an antislip silicone coating.

It has a nice aesthetic appearance, easy cleaning, safe and utterly solid structure free from any kind of elements which may cause accidents.

This pre-assembled article has a structure in galvanized steel inside tube, in conformity of EN 10240 A.I Norm and outside non-toxic biocompatible Vinyl coating. The seat has 6-polyamide slats. High percentage recycled and recyclable and environmental friendly raw materials are used for its manufacture.

All the surface of the item is treated with a antimicrobial protection in accordance with ISO 22196 Norm, lowering down the levels of bacteria, mildews, fungus of at least 99,9% within 24 hours and warranting an antimicrobial effectiveness for the entire life of the article.

The seat is available in the following colours:

Grey Stone „D2“, Dark Grey „D4“, Ivory „I1“, Biscuit „I2“, Prune „P4“, Ruby Red „R7“, White „W1“, Light Yellow „Y3“

## Sanitaryware

*Ponte Giulio have focused on inclusive designed products which not only look stylish in any modern bathroom but are designed for everyone to use. By designing a range of products that "Future proof" your bathroom, and will enable all the family to enjoy using it, without having the institutional or clinical feel.*

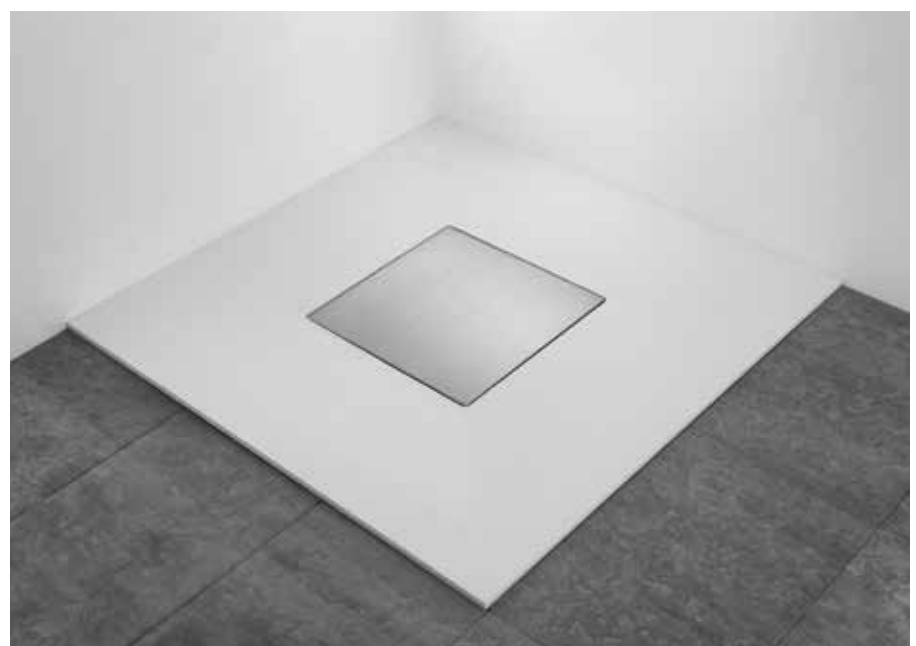

*We have focused on two main product lines, the shower trays and wash basins.*

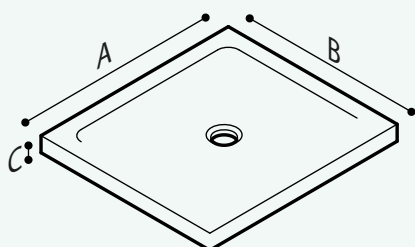

*Both products are manufactured from Acrylic stone, which is a high quality material heated and vacuumed formed to the precise shape.*

*It's very strong when cooled down and doesn't require any added support, it looks very stylish. Advantages of Acrylic stone is that it's pore-free, smooth, joint less surface, hygienic, stain resistant, easy to maintain resistant to bacteria's, viruses.*

### Materials:

- Acrylic stone

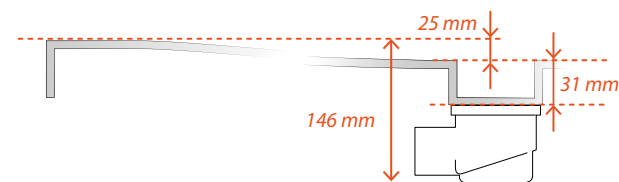

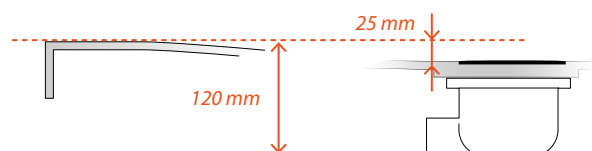

## Shower tray

Acrylic stone shower tray, available in standard sizes and shapes, as well as on request in customized dimensions. The shower tray can be installed both at a higher level than the floor, and at "flush floor" for greater safety and comfort. The drain system for standard shower trays is placed at the center of the plate, but it can also be fitted at any desired position. The acrylic stone is a high quality material having pore-free, smooth and jointless surface; hygienic and easy to clean, easy maintenance and stain resistant, resistance to usual detergents and to bacterias and viruses.

1) Height measure refer to the shower, not includes the drain system.

## Alternative drain systems available on request

Waste drain with top closure cap made of plated ABS or acrylic stone.

"Trap and drain" system with stainless steel or acrylic stone cover.

## Drain hole position

At an angle, left or right position.

Centrally located close to the long side.

Centrally located close to the short side.

### Ergonomic designed wash basin

A beautiful designed and shaped basin which complements any modern bathroom

This basin is manufactured from acrylic stone and incorporates a towel rail which can be used as a grab rail to enable wheelchair users to move themselves nearer to the basin. The edges of the basin are of a flat design which enables sitting or wheelchair users to support their elbows or arms.

Ideal for the smaller bathroom being only 700mm wide and 540mm depth.

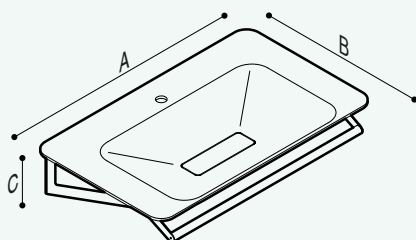

The bracket which supports the basin is manufactured in steel and powdered coated for extra protection and the towel rail is made from stainless steel.

This basin does not have an overflow and the waste is exposed.

Code	Dimensions [AxBxC] mm.

## Bath accessories

### Features

*The personalisation of a bathroom environment can easily be achieved with simple additions such as a mirror or a cloth holder. Ponte Giulio offers products suitable for a variety of uses, both in domestic or public areas, hospitals or hotels, supplying technical and aesthetic solutions suitable for many uses, and offering safety, quality and style.*

### Materials

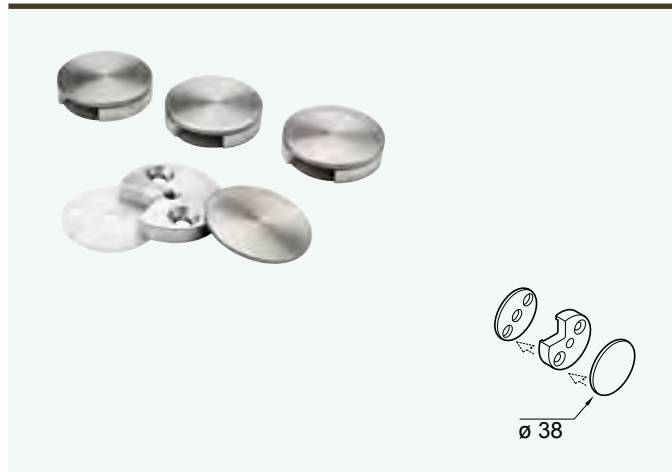

*Considering the variety of products the most common are:*

- Stainless steel AISI 304
- Polyamide
- Aluminium
- Glass
- Polymethylmethacrylate (PMMA)
- Polyoxymethylene (POM)

For specific reference of material involved see each single item.

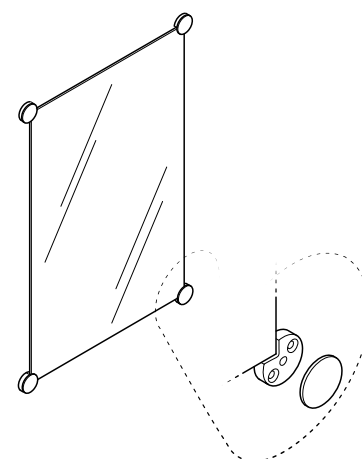

### Mirror wall fixing kit

The mirror fixing kit comprises of 4 stainless steel corner fixings either in satin or polished stainless steel (Satin finish "N1", Bright finish "N2").

They are designed to hold mirrors up to 6mm in thickness and come complete with stainless steel screw and screw covers which are also manufactured in stainless steel.

Code	Dimensions [AxBxC] mm.
<b>F41JKS01</b>	38x10x38

*Mirror is not included*

### Designer and stylish bathroom mirror

The mirror has been designed to look good in any bathroom environment and can have an over the top lamp if required.

Looking at the mirror it would grace any bathroom but has a unique feature which adjusts the mirror to face downwards so a seated or wheelchair user can view themselves.

Just by pulling the small lever on the side the mirror can be used by everyone.

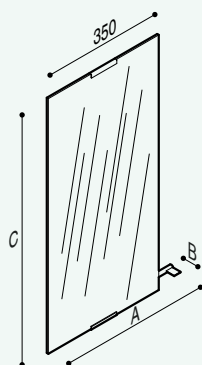

The mirror is made from 5mm safety glass, and the lever is also made from stainless steel and can be used either from the left or right side of the mirror.
